

3+ Mgmt Tidbits: Muscarinic Could Show Differentiated Schizophrenia Data in Q3

Due to strong enrollment, mgmt narrowed potentially pivotal Phase II **schizophrenia (SCZ)** data for ML-007C-MA (novel M1/M4 muscarinic) to Q3:26 (from H2:26), which we think could drive a +100% stock move and derisk a second Phase II dataset in H2:27 for **ADP Alzheimer’s psychosis** (another +100% move). Mgmt seems highly focused on study execution to maximize PoS. Meanwhile, BMY’s comments may support the notion that M1/M4s are fundamentally active in ADP.

(1) MPLT narrows the timing of potentially pivotal Phase II ZEPHYR schizophrenia (SCZ) data to Q3:26 (from H2:26), signaling (+) mgmt execution. Importantly, overall study integrity seems highly intact. (a) ZEPHYR (N=300) randomizes pts 1:1:1 to ML-007C-MA, 210/3mg BID, 300/6mg QD, or pbo, testing Week-5 PANSS. (b) Narrowing data to Q3 (vs Q4) is due to robust enrollment across the 25 US sites - all while ensuring no major patient imbalances across each site. (c) MPLT is carefully selecting pts and attending to data in real time, ensuring baseline PANSS scores well exceed 85+ and mitigating professional patients. (d) Screen failure rates could be slightly above 50% (vs an ~30-50% average for SCZ trials).

(2) ML-007C-MA could produce differentiated data in SCZ. (a) ML-007C-MA is a fixed-dose combo of ML-007 (strong M1/M4 agonist) + fesoterodine (anticholinergic). '007 drives efficacy, while fesoterodine minimizes side effects of M1/M4 agonism (e.g., nausea, vomiting). (b) ML-007C-MA could produce **superior SCZ data** compared to BMY’s Cobenfy (xanomeline M1/M4 + trospium), such as competitive efficacy (a benefit on all SCZ domains), cleaner safety/tolerability (e.g., fewer instances of vomiting/GI/urinary AEs, plus less severe AEs), and fewer discontinuations. Other superior attributes may include QD dosing in SCZ (vs BMY BID), BID in ADP (vs BMY TID), a short titration, and no fasting requirement. (c) Per a real-world poster on Cobenfy, just 18% of pts can reach the target dose (125/30mg) likely due to AEs (e.g., 64% nausea, 37% vomiting), with another 57% on 100/20mg (titration dose) and 26% on 50/20mg (starting dose). In other words, 26% of patients are at the less efficacious dose. (d) To be clear, superior efficacy is an upside scenario, as ML-007 can differentiate on other aforementioned attributes.

(3) This week, BMY shared intriguing comments on Cobenfy (KarXT) in ADP, after delaying ADEPT-2’s ADP data to YE:26 (from Q4:25) due to clinical site irregularities. Cobenfy is approved in SCZ and running Phase III ADP studies. (a) BMY’s ADEPT-1,2,4 trials in ADP are reading out by YE:26 (pot’l 2027 launch). ADEPT-5 will read out later, testing an enteric-coated formulation (Kar-EC) to mitigate GI AEs. (b) For ADEPT-2, the DMC assessed *unblinded* data, before recommending BMY to exclude sites and then enroll more patients back to the original target of N=400. Also, for randomized-withdrawal (RWT) study ADEPT-1, initial 12-week lead-in efficacy (open label) and ‘relapse rates’ are consistent with BMY’s expectations. (c) For ADEPT-2, we assume DMC’s recommendation to maintain the overall study size (vs upsizing it) could suggest a (+) signal in ADP, which is (+) for MPLT. (d) If MPLT’s pbo-controlled ADP data is (+) in H2:27 (VISTA), mgmt will consider either a second pbo-controlled study or a RWT next. (e) Meanwhile, BMY is exploring other \$1B+ indications, including BP1 (pot’l 2028 launch), as well as ALZ agitation/cognition and autism irritability (2029+ launches). If ‘007 succeeds in SCZ, then BMY’s success in these other indications should only bode well for ‘007.

Explanation of Jefferies Ratings

Buy - Describes securities that we expect to provide a total return (price appreciation plus yield) of 15% or more within a 12-month period.

Hold - Describes securities that we expect to provide a total return (price appreciation plus yield) of plus 15% or minus 10% within a 12-month period.

Underperform - Describes securities that we expect to provide a total return (price appreciation plus yield) of minus 10% or less within a 12-month period.

The expected total return (price appreciation plus yield) for Buy rated securities with an average security price consistently below \$10 is 20% or more within a 12-month period as these companies are typically more volatile than the overall stock market. For Hold rated securities with an average security price consistently below \$10, the expected total return (price appreciation plus yield) is plus or minus 20% within a 12-month period. For Underperform rated securities with an average security price consistently below \$10, the expected total return (price appreciation plus yield) is minus 20% or less within a 12-month period.

NR - The investment rating and price target have been temporarily suspended. Such suspensions are in compliance with applicable regulations and/or Jefferies policies.

CS - Coverage Suspended. Jefferies has suspended coverage of this company.

NC - Not covered. Jefferies does not cover this company.

Restricted - Describes issuers where, in conjunction with Jefferies engagement in certain transactions, company policy or applicable securities regulations prohibit certain types of communications, including investment recommendations.

Monitor - Describes securities whose company fundamentals and financials are being monitored, and for which no financial projections or opinions on the investment merits of the company are provided.

Valuation Methodology

Jefferies' methodology for assigning ratings may include the following: market capitalization, maturity, growth/value, volatility and expected total return over the next 12 months. The price targets are based on several methodologies, which may include, but are not restricted to, analyses of market risk, growth rate, revenue stream, discounted cash flow (DCF), EBITDA, EPS, cash flow (CF), free cash flow (FCF), EV/EBITDA, P/E, PE/growth, P/CF, P/FCF, premium (discount)/average group EV/EBITDA, premium (discount)/average group P/E, sum of the parts, net asset value, dividend returns, and return on equity (ROE) over the next 12 months.

Jefferies Franchise Picks

Jefferies Franchise Picks include stock selections from among the best stock ideas from our equity analysts over a 12 month period. Stock selection is based on fundamental analysis and may take into account other factors such as analyst conviction, differentiated analysis, a favorable risk/reward ratio and investment themes that Jefferies analysts are recommending. Jefferies Franchise Picks will include only Buy rated stocks and the number can vary depending on analyst recommendations for inclusion. Stocks will be added as new opportunities arise and removed when the reason for inclusion changes, the stock has met its desired return, if it is no longer rated Buy and/or if it triggers a stop loss. Stocks having 120 day volatility in the bottom quartile of S&P stocks will continue to have a 15% stop loss, and the remainder will have a 20% stop. Franchise Picks are not intended to represent a recommended portfolio of stocks and is not sector based, but we may note where we believe a Pick falls within an investment style such as growth or value.

Risks which may impede the achievement of our Price Target

This report was prepared for general circulation and does not provide investment recommendations specific to individual investors. As such, the financial instruments discussed in this report may not be suitable for all investors and investors must make their own investment decisions based upon their specific investment objectives and financial situation utilizing their own financial advisors as they deem necessary. Past performance of the financial instruments recommended in this report should not be taken as an indication or guarantee of future results. The price, value of, and income from, any of the financial instruments mentioned in this report can rise as well as fall and may be affected by changes in economic, financial and political factors. If a financial instrument is denominated in a currency other than the investor's home currency, a change in exchange rates may adversely affect the price of, value of, or income derived from the financial instrument described in this report. To the extent prices are shown in non-US currency, please note that our local currency price targets are based on a currency conversion using an exchange rate as of the prior trading day (unless otherwise noted). Should there be fluctuations in the exchange rate after this date, that will affect the non-US target prices and should no longer be relied upon. In addition, investors in securities such as ADRs, whose values are affected by the currency of the underlying security, effectively assume currency risk.

Any action taken by the recipient of this report, based on the information in the report, is at the recipient's sole judgment and risk. The recipient must perform his or her own independent review of any prospective investment. If the recipient uses the services of Jefferies LLC (or other affiliated broker-dealers), in connection with a purchase or sale of a security that is a subject of these materials, such broker-dealer may act as principal for its own accounts or as agent for another person. Only JRS is registered with the SEC as an investment adviser; and therefore neither Jefferies LLC nor any other Jefferies affiliate has any fiduciary duty in connection with distribution of these reports.

The price and value of the investments referred to herein and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

This report may contain forward looking statements that may be affected by inaccurate assumptions or by known or unknown risks, uncertainties, and other important factors. As a result, the actual results, events, performance or achievements of the financial product may be materially different from those expressed or implied in such statements.

This report has been prepared independently of any issuer of securities mentioned herein and not as agent of any issuer of securities. No Equity Research personnel have authority whatsoever to make any representations or warranty on behalf of the issuer(s). Any comments or statements made herein are those of the Jefferies entity producing this report and may differ from the views of other Jefferies entities.

This report may contain information obtained from third parties, including ratings from credit ratings agencies such as Standard & Poor's, and information derived from third-party or proprietary generative artificial intelligence (Gen AI) models. Jefferies does not guarantee the accuracy, completeness, timeliness or availability of this information, and is not responsible for any errors or omissions (negligent or otherwise), regardless of the cause, or for the results obtained from the use of such content. Neither Jefferies nor any third-party content providers, including providers of Gen AI models, give any express or implied warranties, including, but not limited to, any warranties of merchantability or fitness for a particular purpose or use. Neither Jefferies nor any third-party content provider shall be liable for any direct, indirect, incidental, exemplary, compensatory, punitive, special or consequential damages, costs, expenses, legal fees, or losses (including lost income or profits and opportunity costs) in connection with any use of their content, including ratings. Credit ratings are statements of opinions and are not statements of fact or recommendations to purchase, hold or sell securities. They do not address the suitability of securities or the suitability of securities for investment purposes, and should not be relied on as investment advice. Reproduction and distribution of third party content in any form is prohibited except with the prior written permission of the related third party.

Jefferies research reports are disseminated and available electronically, and, in some cases, also in printed form. Electronic research is simultaneously made available to all clients. This report or any portion hereof may not be copied, reprinted, sold, or redistributed or disclosed by the recipient or any third party, by content scraping or extraction, automated processing, or any other form or means, without the prior written consent of Jefferies. Any unauthorized use is prohibited. Neither Jefferies nor any of its respective directors, officers or employees, is responsible for guaranteeing the financial success of any investment, or accepts any liability whatsoever for any direct, indirect or consequential damages or losses arising from any use of this report or its contents. Nothing herein shall be construed to waive any liability Jefferies has under applicable U.S. federal or state securities laws.
