MPLT - Takeaways from the Leerink Partners Global Healthcare Conference

March 12, 2026

- **Bottom Line:** At our Global Healthcare Conference, we spoke with Christopher Kroeger (CEO) to discuss the potential for MLP007C-MA in schizophrenia and beyond. Everything we heard today supports our investment thesis.
- **Key Takeaways:**
- **MPL-007-MC-PAC**
- MPL-007-MC-PAC is a fixed-dose combination of ML-007 (novel M1/M4 agonist) with fesoterodine (PAC), and both components have high oral bioavailability.
- MPL-007-MC-PAC is differentiated from Cobenfy with synchronized agonist/antagonist exposure, which significantly improves tolerability with limited episodes of vomiting and low rates of anti-cholinergic AEs.
- Further, the formulation of MPL-007-MC-PAC significantly improved ease of use with either QD/BID dosing, no fasting requirements and minimal titration.
- Regarding the MoA, management indicated that the dual M1/M4 targeting is optimal for comprehensive symptom improvement across positive, negative, and cognitive symptoms. Further, preclinical models demonstrated that activating both M1 and M4 receptors is the most efficient approach to date for robust efficacy at clinically relevant doses.
- The combination doses of 210/3mg BID and 330/6mg QD used in the Phase 1 study achieved CSF exposures that exceeded conservative targets. And the company made the matching skewed to pro-cholinergic AEs based on the fact that anti-cholinergic AEs are poorly tolerated vs Cobenfy, that demonstrates high rates of both cholinergic and anti-cholinergic AEs.
- Management reiterated that the Phase 2 data in schizophrenia is expected in 3Q26.
- Regarding management of the placebo response, the company is deploying a clinical team that is involved with the screening process of the clinical trial patient population. And the company established a central lab to review the ratings of patient interviews and retrain sites

if any challenges come up. Additionally, the company is using US only sites for now.

- **ML-004**
- ML-004 is a formulation of zolmitriptan (5-HT1B/1D), and management indicated that there is a strong body of evidence supporting the role of 5-HT1B in improving sociability.
- Management also reiterated that the top-line data from the Phase 2 of ML-004 in autism spectrum disorder (ASD) is expected in 3Q26 as well.
- ABI (Autism Behavior Inventory) social communication domain score is the primary endpoint. And management noted that social communication is a challenging endpoint to assess and stated that J&J (MP, Risinger) previously worked closely with the FDA to develop a scale, which the company licensed as the endpoint.

Created by: BlueMatrix

Valuation

Our \$30 PT is based on a SOTP analysis that forecasts cash flows into the 2040s, with a 10% discount rate.

Risks to Valuation

Key risks to our investment thesis include:

- ML-007C-MA fails to demonstrate efficacy in the Phase 2 trial in schizophrenia in 2H26
- Bristol's Cobenfy fails to demonstrate efficacy in Alzheimer's disease psychosis in 4Q25
- New safety signal emerges in the schizophrenia or Alzheimer's disease psychosis programs
- Competing M4 agents (e.g., Neurocrine's NBI-568) demonstrate a better clinical profile

Created by: BlueMatrix

Valuation

Our PT is \$232, based upon a P/E of 18.5x our 2027 EPS estimate.

Risks to Valuation

Risks to the upside include: 1) encouraging financial results, 2) positive talc product liability legal developments, including positive Daubert rulings, and 3) pipeline candidate successes.

Risks to the downside include: 1) disappointing financial results, 2) negative talc product liability legal decisions, 3) pipeline candidate disappointments, 4) competitive pressures, 5) macroeconomic and/or inflationary pressures, 6) government risks, and 7) other negative legal developments.

Distribution of Ratings/Investment Banking Services (IB) as of 12/31/25				
Rating	Count	Percent	IB Serv./Past 12 Mos.	
			Count	Percent
BUY [OP]	222	76.6	122	55.0
HOLD [MP]	66	22.8	15	22.7
SELL [UP]	2	0.7	0	0

Explanation of Ratings

Outperform (Buy): We expect this stock to outperform its benchmark over the next 12 months.

Market Perform (Hold/Neutral): We expect this stock to perform in line with its benchmark over the next 12 months.

Underperform (Sell): We expect this stock to underperform its benchmark over the next 12 months.

The degree of outperformance or underperformance required to warrant an Outperform or an Underperform rating should be commensurate with the risk profile of the company.

For the purposes of these definitions the relevant benchmark for "Leerink Partners" branded healthcare and life sciences equity research will be the S&P 600® Health Care Index for issuers with a market capitalization of less than \$2 billion and the S&P 500® Health Care Index for issuers with a market capitalization over \$2 billion.

Important Disclosures

This information (including, but not limited to, prices, quotes and statistics) has been obtained from sources that we believe reliable, but we do not represent that it is accurate or complete and it should not be relied upon as such. All information is subject to change without notice. The information is intended for Institutional Use Only and is not an offer to sell or a solicitation to buy any product to which this information relates. Leerink Partners LLC (the “Firm” or “Leerink Partners”), its officers, directors, employees, proprietary accounts and affiliates may have a position, long or short, in the securities referred to in this report, and/or other related securities, and from time to time may increase or decrease the position or express a view that is contrary to that contained in this report. The Firm’s research analysts, salespeople, traders and other professionals may provide oral or written market commentary or trading strategies that are contrary to opinions expressed in this report. The past performance of securities does not guarantee or predict future performance. Transaction strategies described herein may not be suitable for all investors. This document may not be reproduced or circulated without the Firm’s written authority. Additional information is available upon request by contacting the Editorial Department, Leerink Partners, 53 State Street, 40th Floor, Boston, MA 02109.

Like all Firm employees, research analysts receive compensation that is impacted by, among other factors, overall firm profitability, which includes revenues from, among other business units, Institutional Equities, Research, and Investment Banking. Research analysts, however, are not compensated for a specific investment banking services transaction. To the extent Leerink Partners’ research reports are referenced in this material, they are either attached hereto or information about these companies, including prices, rating, market making status, price charts, compensation disclosures, Analyst Certifications, etc. is available on <https://leerink.bluematrix.com/sellside/Disclosures.action>.

MEDACorp LLC, an affiliate of Leerink Partners, is a global network of independent healthcare professionals (Key Opinion Leaders and consultants) providing industry and market insights to Leerink Partners and its clients.

In the past 12 months, Leerink Partners has received compensation for providing investment banking services to MapLight Therapeutics, Inc.

Leerink Partners makes a market in MapLight Therapeutics, Inc. and Johnson & Johnson.

Leerink Partners has acted as the manager for a public offering of MapLight Therapeutics, Inc. in the past 12 months.
